

ATM Leasing Program The Best Deal in Banking

Bankers around the country know the advantages of a strong ATM presence. In recent years, the use of these machines has skyrocketed, leading banks and credit unions with the desire to put an increasing number of ATM's into operation. However, in times like these, large capital expenditures are not always a viable option. Bankpak has your solution.

ATM Leasing is a new service offered by Bankpak that allows your financial institution to greatly increase your ATM presence while requiring very little initial cost and a low monthly cost that is offset by shared foreign transaction fees.

The foreign transaction fee will be determined by your financial institution. BankPak will credit all but \$1.00 of the foreign transaction fee towards the monthly fee of the machine you choose. Your bank customers will not pay a fee.

Foreign Transaction Fee Example:

Foreign transaction fee:	\$ 2.50
Bankpak retains:	<u>\$ 1.00</u>
Credit towards monthly ATM fee:	\$ 1.50

Delivery, installation, and training.....\$ 1,000.00 per machine

Bankpak will provide the phone line, service, and processing for the machines.

Your bank will be responsible for providing the cash and receipt paper, insuring the cash, and loading and balancing the ATM. Our technicians will service the machine if and when there is an issue
